

HAZARD MITIGATION PLANNING MEETING

JANUARY 18, 2018

10:00 AM- NOON

Location:

**KTO Multipurpose
Building, 105365 S.
HWY 102, McCloud**

**For More Information contact
Daniel Wind @
danielwind@okkt.net or call
405-964-5967. Visit our
webpage at www.kto-env.com
Or find us on Facebook.**

**KDEP is located
Approximately 4 1/2 Miles
North of McCloud on Hwy 102.**

The KDEP is leading a planning effort to update the tribes existing 2012 Hazard Mitigation Plan.

- The Hazard Mitigation Plan is a community based document that assess vulnerability to natural and man-made hazards and identifies resources to reduce this vulnerability.
- We are inviting Kickapoo leaders, tribal members, employees, and neighboring communities to participate with this plan development.
- We will be identifying any hazards that may pose a risk to tribal members, property, environment, and economic structure of the Kickapoo Tribe.

Updating this plan will allow the tribe to apply for funding through grant programs, identify projects to reduce risk, and request assistance or reimbursement from declared disasters.
